

# Demonstrate the impact of your extended schools programme

Delivery of the extended schools programme is a key responsibility for local authorities. This responsibility places a significant burden on those managing extended school provision. The *Extended School Survey* enables local authorities or clusters of schools to gather and analyse data related to extended schools activity.

## Build compelling evidence

The *Extended School Survey* helps you to:

- present convincing evidence of provision
- identify gaps in provision
- contribute to self-evaluation
- target investment and resources effectively
- assess the sustainability of provision
- locate strong and weak areas of provision using customised maps
- demonstrate progress over time.

## The process

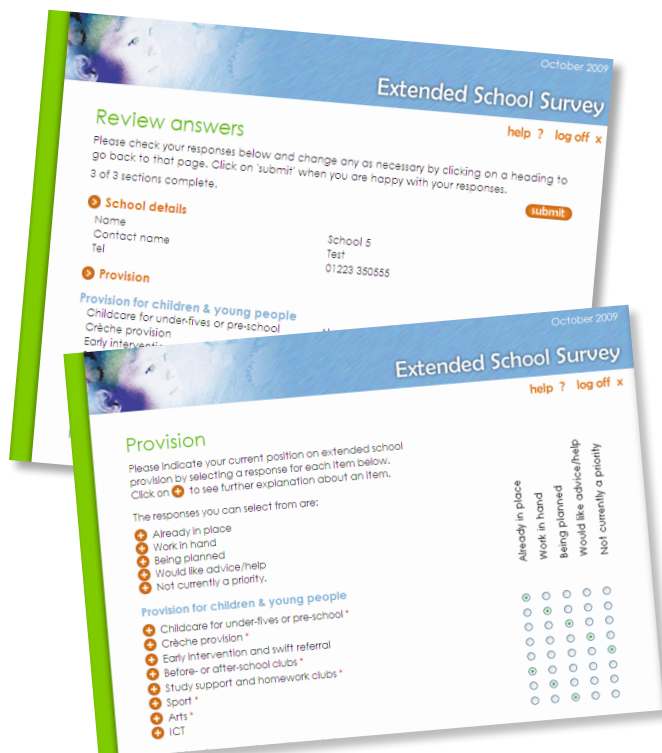

Using a Web-based interface, schools provide information about the following extended school activities. The whole process takes respondents just a few minutes, at a time that suits them. The data can be collected over more than one session if required.

### Provision for children and young people

- Childcare for under-fives or pre-school
- Crèche provision
- Early intervention and swift referral
- Before - or after - school clubs
- Study support and homework clubs
- Sport
- Arts
- ICT

### Provision for parents and other adults

- Skills for Life
- Family support: Health & social care
- Family support: Parenting
- Family learning
- Lifelong learning/ Key Skills
- Sport
- Arts
- ICT

Schools indicate their position on provision for each activity by choosing one of the following options:

- Already in place
- Work in hand
- Being planned
- Would like advice/help
- Not currently a priority.

There are also free text areas to give details of facilities or expertise which may not be covered by the options listed.

## Analysis and reporting

Local authorities/clusters receive a report in print and as a portable document format (PDF) file on CD-ROM which summarises the data collected by the *Extended School Survey*. The data is shown in graphs to help you to identify weak and strong areas of extended school provision, and is separated for primary, secondary and special schools to help you to focus more easily on your targets. You can also view the data in a spreadsheet to perform your own analysis. A report is also provided for each school.

## Show progress over time

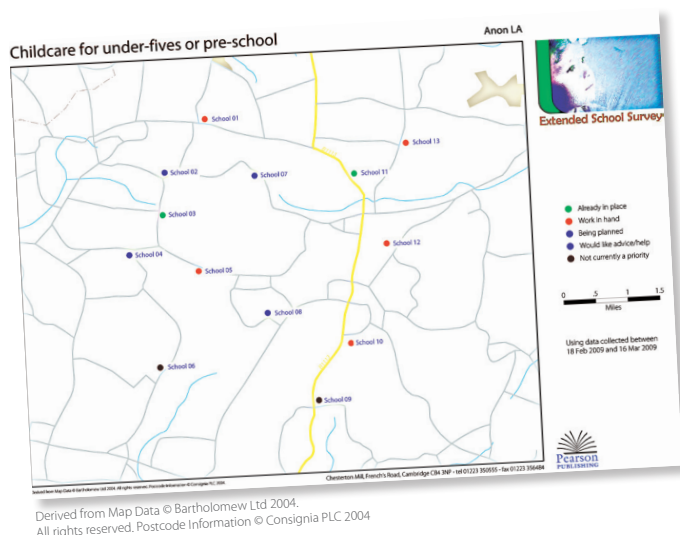

By taking advantage of the *Extended School Survey* again, eg a year after the initial survey, you can look at the progress of schools with regard to the provision of services. The report and maps may indicate how much the delivery of the extended schools agenda has developed over time across the authority/cluster.

## Exceptional value

For groups of schools, access to the online system, data-gathering, analysis and report generation costs just **£50<sup>+VAT</sup>** per small primary school (up to 100 pupils), **£75<sup>+VAT</sup>** per primary (with over 100 pupils)/PRU/special school or **£100<sup>+VAT</sup>** per secondary school. A full set of 17 standard maps is available at **£250<sup>+VAT</sup>** per group of schools. An additional large colour poster map costs only **£125<sup>+VAT</sup>** each.

## Bespoke mapping service

In addition to the report, you can also benefit from a separate, innovative mapping service, which is based on the data collected by the survey. Customised maps are provided for each extended school activity. All schools within the authority/cluster are represented to help you visualise and identify locations where extended school activities are already taking place and where they might be needed. A large, poster-size map can be produced to view extended school provision across the authority/cluster.

**For authority-wide programmes, please call 01223 350555 for special prices.**

### Order form *Please select either option 1 or option 2:*

**Option 1:** Please prepare for us to use the *Extended School Survey* with  schools for a total of £  + VAT

Please supply: The standard set of maps @ £250<sup>+VAT</sup>  and/or the colour poster map @ £125<sup>+VAT</sup>

**Option 2:** We would like to discuss our particular circumstances.
